

GKB S6107 Infrared Illuminator

Weatherproof Infrared Illuminator for Outdoor/Indoor Application

GKB S6107 is a compact IR illuminator, featuring 850 nm IR LED and providing night-time covert lighting control for long-range indoor/outdoor surveillance. Its simple, design can be safely and discreetly installed to enhance the night time performance of existing cameras. GKB S6107 incorporates regulated power input circuit, allowing 12-24V DC/AC or 99-240V AC power supply without the need for separate PSU.

Features:

- 20pcs High-Performance 850 nm IR LED
- Weatherproof IP66 rating
- Provide more than 30m (100 ft.) IR distance
- Low Voltage, simple design
- Provide Discreet Night-time surveillance

GKB S6107 Infrared Illuminator

Description	Infrared Illuminator	Power On/Off	With CDS auto control
Wave Length	850 nm	Infrared LED	20pcs
Radiant Distance	30m (100 ft.)	Dimension	150 (H) * 100 mm(l)
Radiant Angel	40°	Weight	0.6 kg
Power Voltage	AC/DC (12~24)V; AC 99~240V
